

Starry night

馮郁庭 Amy Feng

The star flew
The sky blue

Stars cast shadows in our darkest side
We want to hide
We will reach the other side
When tomorrow comes like a tide

Stars are so light
Guide your way bright
Gaze at the starry night
Remember to seize delight

Starry night twinkled upon the painting
When Van Gogh made his drawing
Starry night sparkled upon the piano
When Mozart was playing long time ago
Starry night twinkled upon the old song
When Don McLean was singing belong
Starry starry night
Starry night upon the Christmas tree
Make every wonderful dream free

The shooting stars fall
Make a wish on us all
